

Where do I HIDE and HUNT for rocks?

1. Be mindful of the environment and respectful of the community guidelines that already exist.
2. Don't hide or search on private property. Respect property lines. Keep your searching and hiding in public locations.
3. Popular hiding spots include parks, playgrounds and family-friendly hiking trails. Be sure the rocks aren't where someone will trip over them.
4. Place your rocks in open spaces, not in places that will disturb nature or ruin a lawnmower.
5. Don't place them anywhere too high that they may fall on someone.
6. Downtown areas offer many places rocks can be hidden. Take a walk down the main streets downtown and look for places out in the open. If you're hiding them around the outside of stores, get permission.
7. Be safe and considerate about where you are hiding. These rocks are meant to bring joy.

What do I do with the rock I FOUND?

1. It's your choice. You can keep your rock or hide it in another location.
2. Tell friends, family, and neighbors about your rock painting adventures and invite them to join the fun.
3. Spread the joy! Consider painting and hiding more rocks. It's a lot of fun for kids of all ages -- from toddlers to seniors!
4. The library is posting on their Facebook page some of the photos of rocks found.

TAKE THE TIME TO BE KIND. YOU CAN MAKE ALL THE DIFFERENCE IN SOMEONE'S LIFE. HAVE FUN WITH THE PROJECT!
